THE most saf-, sfeetmal and we Tor discove of the the .. is. .. adiluten, that

has ever been discur cred. tracted from Merlical Plants, and nee warranted not to contain one particle of moreury, of any mineral substance Dr. Kingley, the inventor of the valuathe medicine, from his knewlestee of the human system derived from a bing and calculate greatite, has arrived to the conclusion, that the great and probate come of the ost disease is a defendence in creused or diminished recretion of the Bile.

So well is this understood, that it recommon for persons to say when they see unwell that they are Bilious, meaning that they have too much hile in the stomach. On the other liand, which the flow of bile is diminished, the process of digestion is imperfectly performed, the patters berould weak and emaciated. because marishment contained in the food taken into the stomach is not properly extracted, and the food is ejected in a crude state. Dr. Kingley is confident that the famous Plygerit Phony, so called that must of all diseates." the subject a moment, will perceive that impurity of the blood is a resumdary unt a primary complyint

the effect, and not the cause of the disease. the functions of the liver are deranged, and the flow of bile increased, it is often taken up by the absorbeut-sessis and eached into the citemation and hecomes mingled with the blood ag in Inundice, when the patient shows it in his countenance. Now this impurity of the blood is caused by an increased flow of the bile, and to remedy it you must correct the secretion of the liver and restore it to a hertity-state. Dr. Kingley has seent much time; in experimenting with different vegetable medicines, for diseases of the liver, and now offers his Universal Family Pills as the best, most-convenient and cheapest medicine that can be prepared for general use ; and in offering them to the public, he is actuated more by benevolent than pseuniary motives, as the price

of the medicine will show. Dr. Kingley flatters himself that his long experimenting with vegetable medicines has establed him to discover the true and only substitute against all the purpose of mercurists, without any of their attendant evils. One great quality of his family Pills is, that they have the alternive principle combined with their cathartic or operative quality, so that they not any cleanse the stomach and bowell by purging, but they rigulate the liver, change the morbid secretions, strengthen the digestive organs, purify the blood, invigorate the circulation, and give ione and energy to the nervous system.

They are mild and pleasant in their operation, and almost immediate conviction of their willy from the first dose. They can be taken with safety by percous of any age, and the feeble, the infirm, the nervous, the delicate, are strengthened by their operation, because they clear the system of bad humors, quiet nervous irritabilities and restlessness.
